

Elijah – Share

We're going to try listening to God for other people. That means not listening for what he wants to say to you about yourself but what he wants you to pass on for someone else.

You could take it in turns to do each person in your house who wants to. Remember that God will only ever say stuff that fits with who he is (his character) and only stuff that is encouraging.

If you get something (word, picture, Bible verse) you might want to share it out loud or you might want to write it down.

It takes practice to hear God's voice for other people so don't worry if you don't hear anything, keep trying.
