

Session I - Peter's Escape Craft

Cut out the 2 pictures below. Cut out the middle of the window on the first picture and turn it round 90 degrees so the flaps are at the top and the bottom.. On the back of the window attach some thin black strips or pieces of black wool to make the bars. Fold over the flaps and seal. Slot in Peter. Hold the tab and slide it across to change the picture. This craft will work best on card.
