

David – Share

David was small and no-one thought he could win the fight against Goliath, but God had given him skills.

Find a small box for each person in the house.

Everyone should go around the house and find small objects to fit in their box that describe who they are, their personality what they are good at, their likes/dislikes etc.

Set a time limit!

At the end of the time limit come back together. Allow each person to share what's in their box and what it means. Allow each person to speak without interruptions. It's up to them what the item represents.

Say a thank you prayer for each person in your house, how God made us all unique and gives us different gifts and skills. You could simply go round the circle saying 'Thank you God for...' and say the name of the person sitting next to you.
