

# David & Jonathan Friendship Bracelet

Think of some people who are really good friends to you.

Cut out the friendship strips and colour them in. Decorate them with shapes, flowers, hearts, stripes. Things that person likes.

If you're able to safely send them to your friend do so. It would be easier if you posted it flat and told them to use sellotape to turn it into a bracelet. Otherwise they could use it as a bookmark!

Thank you for being my friend
